 In our connected and transparent world, we know that people care deeply about privacy – and so do we.. Our team shared more Windows 10 experiences and how Windows 10 will inspire new scenarios across the broadest range of devices, from big screens to small screens to no screens at all.. We believe your experiences should be mobile – not just your devices Technology should be out of the way and your apps, services and content should move with you across devices, seamlessly and easily.. Windows 10 is the first step to an era of more personal computing This vision framed our work on Windows 10, where we are moving Windows from its heritage of enabling a single device – the PC – to a world that is more mobile, natural and grounded in trust.
